

Contract Prices for Letter, Direct Marketing and Publication Services as of January 1, 2024

These Contract Prices of Posti Distribution Ltd (hereinafter Posti) are valid from January 1, 2024, and replace the Contract Prices of June 1, 2023.

Value added tax

The tariffs and rates are quoted excluding VAT, unless otherwise stated. VAT valid at the time will be added to prices during invoicing.

No VAT is added to the tariffs and rates applying to mail addressed to the Åland Islands, special areas outside the European Union's excise and VAT zone and non-EU member states.

General basis for discounts

The prices and pricing principles of the services are specified for each service later in this Price List or in service-specific price lists, customers' agreements or the price appendices of such agreements. Discounts are calculated from the list prices valid at any given time and are determined on a service-specific basis. The realization of the bases for discounts is monitored by Posti. If the bases differ from what has been agreed upon, Posti has the right to cancel any discount given/revise the discount level according to the actual level.

The main basis for discounts on domestic addressed marketing items, Customer Direct, is the annual volume. The annual volume discount requires a specific minimum annual volume of items, a separate agreement, an annual mailing plan and that the mailing plan is kept up to date. The mailing plan is submitted and updated through Posti's online service channel.

The main basis for discounts on Publication Services is the annual number of issues. This excludes the Publication service, which does not offer the discount in question. You can find out more about the bases for discounts on Publication Services on page 16.

Domestic Letter Services

Item Pricing

Depending on the service, the pricing of letters is based on the quantity, weight, size, recipient delivery area and processability of items as well as on the preparatory work done by the sender. The price also depends on the additional services used, the batch sizes and the mailing and payment methods used.

The selection of a payment and mailing method for letter items depends on the number of items or the need for using items. For large daily mailing batches or large non-recurring batches, we recommend invoicing through the mailing list. Find the delivery options and prices for items in Finland in the Priority and Economy letters and Standard Letters sections of the price list. For instructions on the delivery markings placed on the items and other mailing guidelines, please visit **Posti.fi**.

For smaller daily mailing batches, we recommend Posti Pre-Paid Envelope. Pre-order envelopes in the Pre-Paid Envelope Shop. Posti Pre-Paid Envelope is also convenient if your company operates in multiple locations around Finland.

Posti Pre-Paid Envelope

Make your mailing routines easier by using a Pre-Paid Envelope. The Envelope is immediately ready to use as the sender's contact details and payment indications have been printed on it.

The total price of the Pre-Paid Envelope is determined according to the postage fee and the envelope material and printing costs.

The maximum weight of C/E4 envelopes is 300 g and the maximum thickness 30 mm (minimum order quantity 100 pcs).

The maximum weight of C/E5 envelopes is 100 g and the maximum thickness 30 mm (minimum order quantity 100 pcs).

The above table shows the prices of the most commonly used pre paid envelopes, which are printed using two colors at the most and comprise 1,000 envelopes per batch. See more easy to use pre-paid envelope options at posti.fi/pre-paid-envelope

Standard Letters

Standard Letter is the cheapest way to send standard-sized letters that are suitable for machine sorting. All Standard Letter services require the use of Sorting Service and a Posti 2D code on the item. See more detailed information in the Guide to Machine-Sortable Items and in mailing instructions.

Dimensions of Standard Letters (C5)

Minimum size E6 (110mm x 156mm)

Maximum size C5 (162mm x 229mm)

Maximum weight 50g

Thickness 0.2–5mm

Items that do not meet the specifications for machine-sortable items and product terms of the selected Standard Letter service, will be handled and invoiced as Priority or Economy Letters.

The pricing of Priority Standard Letter Pro and Economy Standard Letter Pro is affected by the correctness of the recipient's address information. If recipient information is not provided to the Sorting Service according to Posti's instructions, Additional Handling (subject to a charge) will be added automatically to Standard Letter Pro items.

19427 Posti Priority Standard Letter Pro

Priority Standard Letter Pro items are normally delivered within two or three weekdays of the mailing date.

The shipping of an mailing batch must be done through the Posti Sorting Service and the 2D code from the Sorting Service must be printed on the letters. More information: posti.fi/sortingservice

EUR 1.81 / item

19190 Posti Economy Standard Letter Pro

Economy Standard Letter Pro is usually delivered to the recipient within four weekdays of the mailing date.

The shipping of an Economy Standard Letter Pro mailing batch must be done through the Posti Sorting Service and the 2D code from the Sorting Service must be printed on the letters. More information: posti.fi/sortingservice

Item pricing is based on the regional price defined by the recipient's postal code. If a customer uses an invalid postal code, the item addressed to that postal code will be invoiced according to area C. More detailed information is available from Posti Corporate Customer Service.

Area	Price / item
Area A	EUR 0.5865

Sending Valuable Items in Finland

When you are sending valuable content in a letter, you can ensure the best protection and item-specific tracking by using services for valuable items. Depending on your needs, you can choose an Express Letter, a Registered Letter, a Letter with Advice of Delivery or a Posti Insured item. Print the address label either from the Posti SmartShip or OmaPosti Pro ordering channel, and the item will immediately be trackable by both the sender and the recipient. A notice of arrival is sent to the recipient as an SMS or to the recipient's OmaPosti application or email address if the recipient's mobile phone number and email address have been recorded on the item.

Registered Letters, Letters with Advice of Delivery and Insured Items are only handed over to an identified recipient against a signature.

Item Pricing, Payment Methods and Dimensions

Pricing is based on the weight of the items and, for a Posti Insured Item, on the value of the item. The total price also depends on the additional services used.

Registered Letters, Letters with Advice of Delivery, Insured Items and Express Letters can be ordered by using the Posti SmartShip ordering channel.

Registered Letters and Express Letters can be ordered also by using the OmaPosti Pro ordering channel.

International Letter Items

Item Pricing

Pricing is based on the quantity and weight of items. The price also depends on the tariff zone and the additional services used, as well as the payment method used.

The selection of a payment and mailing method for letter items depends on the number of items or the need for using items. For large daily mailing batches or large non-recurring batches, we recommend invoicing through the mailing list. For the product-specific mailing indications and instructions on the delivery markings placed on the items and other mailing guidelines, please visit [Posti.fi](https://posti.fi).

For smaller daily mailing batches, we recommend Posti Pre-Paid Envelope. Pre-order envelopes in the Pre-Paid Envelope Shop. Posti Pre-Paid Envelope is also convenient if your company operates in multiple locations around Finland.

Number of Issues of a Publication

The number of issues is determined on the basis of the number of issues of the same printed publication in a calendar year stated in an advance order. For the same publication, the issues delivered using the Magazine Pro and Economy Publication services are added up. The issues delivered over a calendar year using the Daytime Publication Delivery service will also be taken into account for the Long-Distance Publication Delivery service.

If the publication's number of publishing times in pre-ordered services differs from the information specified as the basis of pricing, Posti shall have the right to charge the difference between the stated and actual publication frequency.

A batch size includes items that are of the same issue of a publication, have the same invoicing address, are delivered during the same invoicing period and are recorded for the same mailing batch.

Mailing Methods that Affect the Price

Magazine Pro, Economy Publication and Publication

The use of the Magazine Pro and Economy Publication services requires using the Posti Sorting Service as well as submitting an advance order and a mailing plan via the online service channel provided by Posti at least four weeks before mailing.

Unbundled publication batches of at least 1,000 items require the use of the Publication's Additional Handling service. The fee for the Publication's Additional Handling additional service will also be charged if the customer does not follow Posti's current service-specific mailing instructions when delivering the batches to Posti.

The Magazine Pro service can only be used for machine-sortable items. Posti has the right to change the service to Economy Publication for items that require manual sorting.

A publication that uses the Economy Publication service and needs to be sorted manually requires the Manual Sorting additional service. Items need to be sorted manually for reasons such as the following: the item's dimensions or weight are above or below the limits set for machine sorting or the item does not have a 4-state code or a 2D bar code. The supplements, plastic wrapping, quality of the cover paper, etc., may also prevent machine sorting. For more detailed information, please see the Guide to Machine-Sortable Items.

The Code Error additional service will also be required for publications that are delivered using the Economy Publication service but that do not have a 4-state code or a 2D bar code or if they have an erroneous code.

Publications that require folding to fit through a mail slot due to their dimensions and that are delivered using the Economy Publication service will also require the Addressed Publication Folding additional service.

A publication that uses the Magazine Pro and Economy Publication services and whose batch size differs by -20% or more from the provided advance information will require the Inaccurate Advance Information additional service. An additional fee is charged for each mailing batch on the basis of the inaccuracy, i.e. in accordance with the number of items exceeding the allowed difference.

Changes to the posting place and time can be made until the day before the previously stated posting day. Changes to the posting place become subject to a charge four weeks before the previously stated posting day. Changes to the posting or delivery day become subject to a charge one week before the previously stated posting day.

Items should be dropped off sorted and unitized in accordance with the instructions available in Posti's online service channel and the Guide to Batch-Sorted Postal Items (addressing, bundling and loading into transport units). Address marking instructions can also be found in the Guide to Machine-Sortable Items.

Daytime Publication Delivery and Long-distance Publication Delivery

The use of the service requires submitting an advance order and a mailing plan via the online service channel provided by Posti at least four weeks before mailing. Posti's Sorting Service must be used for mailing, and the generated 4-state code or 2D bar code must be printed on the publication.

For the Daytime Publication Delivery service, the minimum batch size for a publication is 150 pcs and the minimum service level will be direct transport direction bundle.

If the batches for Daytime Publication Delivery and Long-Distance Publication Delivery are delivered to Posti unbundled or they have not been bundled according to Posti's instructions, the batches will require the Publication's Additional Handling additional service.

The Code Error additional service will also be required for publications that are delivered using the Daytime Publication Delivery service and Long-distance Publication Delivery service, but that do not have a 4-state code or a 2D bar code or if they have an erroneous code.

Changes to the posting place and time can be made until the day before the previously stated posting day. Changes to the posting place become subject to a charge four weeks before the previously stated posting day. Changes to the posting or delivery day become subject to a charge one week before the previously stated posting day. When agreeing on the basic letter posting times for the Daytime Publication Delivery service, a service fee for a late posting time for a mailing batch is charged.

In Daytime Publication Delivery, a Publication's Additional Handling fee for bundles to be opened will be charged for publications in a bundle/bundles to be opened that are addressed to an area.

Items are dropped off as sorted and unitized according to the batch-specific instructions provided by Posti's Sorting Service. Address marking instructions can be found in the Guide for Batch-Sorted Postal Items (addressing, bundling and loading into transport units) and also in the Guide to Machine-Sortable Items.

Nationwide Publication Delivery

Your item is delivered from one point to anywhere in Finland flexibly by the third or fourth weekday of posting.

The Publication service is particularly well suited for small batches and occasional sending. Use of the service does not require placing an advance order.

The Magazine Pro and Economy Publication services are particularly well suited for publications that are published regularly. The services are ordered in advance. The Magazine Pro service is meant for machine-sortable publications that are published in large batches. The Economy Publication service is suitable for batches of all sizes as well as manually sortable publications.

Local Publication Delivery

Local Publication Delivery allows the quick delivery of your publication to your subscribers locally. The services are intended for regular publications published at least 40 times annually.

The Publication Long-Distance Delivery can only be ordered for Publication Daytime Delivery.

The Daytime Publication Delivery service delivers publications to subscribers primarily during the date of publication and the following weekday.

In the Long-distance Publication Delivery service, publications are delivered primarily on the second weekday or on the third weekday following their posting.

Direct Marketing

Posti Customer Direct is addressed delivery service for companies and organizations that wish to target direct and customer relationship marketing or communications to selected recipient groups in Finland.

Customer Direct is a cost-effective way to deliver addressed marketing messages. With it, you can reach your existing and potential customers and ensure your message is noticed.

Item Pricing

The pricing of Customer Direct is based on batch size as well as the weight and processability of the item.

The Additional Handling service, which is subject to a charge, will be added for Customer Direct items if they have not been prepared according to Posti's instructions. If the Customer Direct item's dimensions or shape do not comply with the service characteristics specified for the service in question, Posti will be entitled to process and invoice them as a service the characteristics of which correspond to those of the customer's item.

Mailing Methods that Affect the Price

If you place the order at least four (4) weeks before the mailing day through the electronic Posti Pro service channel, you will be able to take advantage of the 2% advance order discount. The number of items in the advance order can be changed by +25% -10% and item weight by +-30%. If the information changes more or if the mailing location or date changes, or service title changes, the advance order discount will no longer be available.

You get a 5% discount for using the Sorting Service. It is automatically applied to mailing batches that have been processed by the Sorting Service and that have the printed errorless 2D code or 4-state code produced by the Sorting Service. The quantity may be modified by a maximum of +25% -10% and unite weight by +-30%, otherwise the discount is not valid.

Pricing is also affected by the preparation level of the items. If the preparations requirements are not met, Additional Handling (available as an additional service) will be added to the item. The Additional Handling service, which is subject to a charge, will be added for Customer Direct items if they have not been handled according to Posti's instructions (Guide to Batch-Sorted Items, Guide to Machine-Sortable Items and the mailing instructions of Customer Direct).

Posti Home Direct, Unaddressed Delivery

With Home Direct's unaddressed services, you can get your message to households and businesses. Your message can reach more than two million mailboxes weekly inside Postinen or as a separate delivery on days that can be booked in the ordering channel.

The ordering channels are PTP and Posti Kontakti: posti.fi/servicechannels

You can also see the price of your batch in the ordering channel. If needed, you can also get the price information from our customer service or sales team.

Posti Create and Send

In the Posti Contact web service (kontakti.posti.fi), you can send printed messages to the recipients quickly and easily. There can be one or more recipients. You can use the service with Posti transaction codes.

The use of the tool is free of charge and you only pay for placed orders. You can find more options for mailing letters and postcards, and their prices, in Kontakti.

Information Service

The Information Service ensures that your item reaches the recipient even if the recipient's address has changed. You also receive an electronic report about undeliverable items and changes of address. Use the Information Service for addressed letters, direct marketing, and publication delivery services. Pricing is based on monthly usage fee with the number of corrected addresses or undeliverable items. The service can only be used in shipments delivered by Posti.

The price of the Information Service includes the saving of identifying information from the bar code. Posti will charge a separate fee for manual saving.

We can guarantee the service quality only if a functioning bar code is used in the Information Service markings.
