

Posti Freight, Price List for Additional Services

Valid from January 1, 2018

Posti Freight is suitable for the transport of heavier goods from a single shipment to a full load. With Posti Freight service, you reach approximately 90% of companies in Finland by the next business day. We offer you a wide additional service selection in your use. If necessary, we transport your shipment to the consumers home address, carried-in and even installed.

Posti Freight Service Fees

In addition to the pricing agreed with the customer, Posti has the right to add VAT and a fuel surcharge to the price. Should the customer require services not included in the agreed service complying with the terms of delivery, Posti shall be entitled to charge fees for any supplementary services it provides. Freight increases are charged on a shipment-specific basis in accordance with the total chargeable weight indicated in the waybill. Customers must agree on services in advance with Posti. Service fees apply for domestic freight services as well as home delivery service.
