

PARCEL SERVICES AND EXPRESS FREIGHT – Contract Prices May 3, 2021

Prices are valid from January 1, 2021 and Express Freight prices from October 1, 2020. Prices for Postal Parcel International, International return (ERS) and Express parcel international (EMS) are valid from May 3, 2021.

The pricing of parcels is based on units and the mailed item's measured weight or volume, whichever is the greater. The cubic measure used for parcels is 1m³ = 250kg. The minimum pricing weight is 100g.

The maximum batch size for multi parcel shipments is 10 items.

The pricing of Express Freight is based on the transport unit type, the size of the shipment lot, transport distance, and the additional service used.

Unless otherwise stated, the prices include transport from a Posti outlet to the recipient or pick-up location. A pick-up can be ordered for items (subject to a separate charge), or a pick-up and delivery contract can be signed with Posti.

An applicable fuel surcharge will be charged separately. The fuel surcharge is based on the Fuel Factor of Statistics Finland's cost index on the road transport of goods, and it will be reviewed every month, on the first Monday of each month. The surcharge shall be applied to domestic and international parcel and freight services. The currently valid fuel surcharges are specified on Posti's website on page www.posti.fi/fuelsurcharge.

Value added tax

The tariffs and rates are quoted excluding VAT, unless otherwise stated. VAT valid at the time will be added to prices during invoicing.

No VAT is added to the tariffs and rates applying to mail addressed to the Åland Islands, special areas outside the European Union's excise and VAT zone and non-EU member states.
