PRODUCT TERMS FOR LETTER SERVICES FOR CONTRACT CUSTOMERS

1. General

1.1. Scope of application and applicable terms

These Product Terms shall be applicable to Posti Ltd's (hereinafter "Posti") Letter Services ("the Services") as of July 1, 2017. The Services are available to corporate and organizational customers in mainland Finland and their use requires a contract with Posti. In addition to the Product Terms, the Services are subject to the contract concluded between Posti and the Customer as well as Posti Ltd's General Contract Terms ("General Contract Terms") valid at any given time and the legislation applied to the product (the Finnish Postal Act, the Finnish Act on Road Transport Contracts or the Universal Postal Convention).

1.2. Åland

Items containing goods and addressed to the provincial government of Åland must include the documents required by Customs.

1.3. Definitions

Basic delivery comprises mail deliveries on weekdays (Mon–Fri).

Item Tracking: Each item may be assigned individual tracking in which case the progress of the item is entered in the system at different phases of the handling process. The customer may check the status of an item with the aid of an item ID.

SDR shall mean a Special Drawing Right as determined by the International Monetary Fund, the value of which is composed of various currencies (IMF Special Drawing Right).

1.4. Address clarification, forwarding and undeliverable items

Posti primarily delivers domestic letter items to the address provided by the sender. If the service selected by the sender includes the address clarification, Posti shall forward the item to the recipient's new address without a separate fee. If the item does not entail the address clarification, the item shall be forwarded only if the recipient or the Customer has separately agreed on this service (Information Service).

In international services, Posti shall deliver the items to the postal operator of the destination country. The delivery of items and other handling, such as address clarification, forwarding and storage period, vary according to the country of destination.

Undeliverable letters are returned to the sender if the sender's address information is marked on the cover of the item. Undeliverable items are processed according to the product terms of the item and the General Contract Terms.

1.5. Storage period

Items to be picked up from an outlet are stored at the relevant outlet for two (2) full calendar weeks. Forwarding from outlet to outlet will not extend the combined storage period.

1.6. Item dimensions

The maximum and minimum dimensions of items are detailed in the price list.

1.7. Customer's obligations

In addition to what has been stated in the General Contract Terms, the Customer must comply with Posti's mailing or other instructions when using the Services. The Customer shall be responsible for ensuring that correct and up-to-date name, address, and payment information and any other markings required by the Service are indicated on items. The name and Finnish mainland address of the sender must always be indicated on items for the potential return of the item.

By agreeing to these Product Terms, the Customer gives its subcontractors the right to sort a mailing batch and its address data using Posti's Sorting Service without separate authorization. In order to use Posti's Sorting Service, the printing, posting, or print-out house operating as a subcontractor of the Customer is required to have a valid agreement on its use with Posti.

1.8. Posti's right to deviate from the Service ordered by the Customer

Posti has the right to deviate from the Service ordered by the Customer if the Services selected by the Customer are in conflict with each other or the item. Posti aims to carry out the Service in a way that secures the benefit of the Customer. In case of a conflict, Posti may amend the main product or supplementary services. If

the Customer's item does not comply with the requirements of the product selected by the Customer (e.g. in terms of item size), Posti shall be entitled to process and invoice the item as a Service, the characteristics of which correspond to those of the Customer's item. If the dimensions of a mailed letter exceed the maximum dimensions of a letter, the item shall be considered a parcel and it shall be transported and invoiced as a service, the characteristics of which correspond to those of the Customer's item.

1.9. Laboratory samples

If an item contains laboratory samples, the Customer shall be responsible for ensuring that the substance delivered for transport has been categorized and packed in accordance with the Act on the Transport of Dangerous Goods (719/1994), that the package has correct markings and that the name and category of the substance and other required details are entered correctly in the necessary documents. The Customer must instruct the sender to comply with Posti's terms and conditions as well as specific instructions on sending laboratory samples. The contact details of the sender and the Customer must be indicated in each item.

1.10. Methods of payment

The methods of payment available at any given time are specified in the price list. The method of payment chosen by the Customer may affect the available range of services or the price of the Service.

2. Domestic letter services

2.1. Service description

Letter items undergo address clarification and are forwarded to the recipient's new mail address without a separate fee. If the item cannot be delivered, it will be returned without a separate fee to the Finnish mainland return address indicated by the sender on the envelope. Ordinary letters are delivered through basic delivery. If the item is handed over only in exchange for a signature or if the item cannot be delivered due to its size, the recipient is sent a notice that the item can be picked up at a Posti outlet. Letter services are governed by the Finnish Postal Act.

Posti's responsibility for the delivery time ends when the item has been delivered or the notice of arrival has been sent to the recipient.

2.2. Restrictions

SSI is available only if the customer and Posti have separately agreed on the service and on electronic data transfer. The sender shall be responsible for conveying the correct contact details of the recipient to Posti and for the possibility to deliver the message concerning the notice of arrival to the recipient via the message channel in question (e.g. an SMS to a mobile phone, an e-mail or a paper notice to the recipient's delivery address). The sender is also responsible for informing the recipient of his/her obligation to pay for the international costs of receiving messages abroad. Priority Letters mailed on weekdays (Mon–Fri) in accordance with Posti's instructions and/or the agreement between the customer and Posti are delivered to recipients primarily on the next weekday following their mailing and no later than on the second weekday following their mailing.

2.4.2. Damages

Compensation for damage can be paid if it can be verified that the damage occurred when Posti was responsible for the item. The progress of a regular letter cannot be tracked and, consequently, it is usually not possible to determine its reception, progress or delivery retrospectively. In accordance with the Finnish Postal Act, the maximum compensation for the loss, damage or delay of a regular letter is EUR 50 per letter. The principles of damage compensation are specified in the General Contract Terms.

If the item has not been mailed separately from other items as described above, its content is not suitable for air transport or the item is forwarded due to an incorrect address or on the basis of an assignment from the recipient, Posti shall not be responsible for the time of delivery. Express items are delivered to post office boxes only if the sole address on them is the post office box address.

In accordance with the Finnish Postal Act, the maximum compensation for a delayed express letter is EUR 150 per letter. In accordance with the Finnish Postal Act, the maximum compensation for a lost or damaged express letter is EUR 340 per letter. The principles of damage compensation are specified in the General Contract Terms.

The maximum weight of a letter item is 2 kg. The maximum and minimum dimensions of items are detailed in the Tariffs and Rates for Companies.

6.2. Remailing fee

According to the Universal Postal Convention, the postal operator of the destination country is entitled to charge an additional fee for items if it interprets that the Customer's items have been produced or published in the destination country or some other country which is not the country of posting, or that the domicile of the shipment sender is in the destination country or said third country. Based on the remailing claim of the postal operator of the destination country, the Customer is required to pay the difference between the VAT-exclusive postage paid by the customer and the delivery fee charged by the postal operator responsible for the delivery in the destination country added with twenty (20) per cent.

6.3. Customs clearance

Items containing goods addressed to a destination outside the European Union and to special areas outside the Excise Duty and Value-Added Taxation Area of the Union must be accompanied by the CN22 customs manifest if the value of the content is at most SDR 300 (approximately EUR 350). If the value of the content exceeds EUR 300, the item has to be accompanied by the upper part of the CN22 manifest and the CN23 customs manifest in the number of copies required by the destination country. The customs manifest must be completed in accordance with the instructions and it must specifically indicate the nature of the items as well as their value and countries of origin per goods. The markings in the customs manifest should be in English, French, or a language approved in the destination country, itemized in such a way that any import clearance can be performed without difficulty.

The Customer shall determine the customs requirements valid at the time from the documents attached to the item, information entered in the customs manifest or from other requirements of the authorities. The Customer is responsible for all information marked on the item or related to it. According to the Universal Postal Convention, postal operators are not liable for customs

manifests or official decisions related to customs declarations.

Posti takes care of the presentation of goods to customs according to Council Regulation (EEC) No 2913/92 establishing the Community Customs Code and any possible later amendments thereto. If required, Posti can arrange any import and export clearance as a separate service.

6.4. Estimated delivery time

The delivery times of international mail shipments are always estimates. In accordance with UPU's regulations concerning damages payable, Posti shall not be liable for delays in international traffic.

6.5. Restrictions

In addition to Posti's Product Terms and General Contract Terms, the restrictions and shipment limitations of the destination country apply to the contents of letters addressed to foreign countries.

6.6. Special restrictions

International deliveries are subject to special restrictions, which the Customer is always responsible for observing. Sending money, securities or precious metals by mail is prohibited in many countries. In addition to postal regulations, national customs and tax regulations, for example, may cause restrictions. Posti is entitled to refuse to deliver a shipment which violates the restrictions. The item content restrictions specified in Posti's General Contract Terms also apply.

6.7. Observing country-specific conditions

Destination countries may regulate the contents and methods of shipment of shipments arriving in the country. The Customer shall ensure that the item content is allowed to be sent to the destination country. The applicable country-specific restrictions can be checked from the destination country's commercial agency.
