LETTER SERVICES PRODUCT TERMS FOR CONTRACT CUSTOMERS

1. Overview

1.1. Scope of application and applicable terms

These Product Terms shall be applicable to Posti Ltd's (hereinafter "Posti") Letter Services ("the Services") as of August 1, 2020. The Services are available to corporate and organizational customers in mainland Finland and their use requires a contract with Posti. In addition to the Product Terms, the Services are subject to the contract concluded between Posti and the Customer as well as Posti Ltd's General Contract Terms ("General Contract Terms") valid at any given time and the legislation applied to the product (the Finnish Postal Act, the Finnish Act on Road Transport Contracts or the Universal Postal Convention).

1.2. Åland Islands

Items containing goods and addressed to the region of Åland Islands must include the documents required by Customs.

1.3. Definitions

A **mailing batch** is a batch of a single Customer consisting of a single service that is submitted to Posti on the same day and entered in the same mailing list under the same customer number.

A **mailing list** is an electronic channel for ordering letter and marketing service products. Information indicated on the mailing list is transferred to the contract customer's invoice.

Advance order is information provided on a batch in advance that helps to allocate mail handling and delivery resources and ensures that the service level agreed for the delivery is realized.

Basic delivery comprises mail deliveries on weekdays (Mon–Fri).

Item Tracking: Each item may be assigned individual tracking in which case the progress of the item is entered in the system at different phases of the handling process. The Customer may check the status of an item with the aid of an item ID.

SDR shall mean a Special Drawing Right as determined by the International Monetary Fund, the value

of which is composed of various currencies (IMF Special Drawing Right).

1.4. Address clarification, forwarding and undeliverable items

Posti primarily delivers domestic letter items to the address in mainland Finland provided by the sender. If the service selected by the Customer includes the address clarification, Posti shall forward the item to the recipient's new address without a separate fee. If the item does not entail the address clarification, the item shall be forwarded only if the recipient or the Customer has separately agreed on this service (Information Service).

Posti shall deliver the items to Åland Post Ab in the Åland Islands and, in international services, to the postal operator of the destination country. The delivery of items and other handling, such as address clarification, forwarding and storage period, vary according to the destination country.

Undeliverable letters are returned to the sender if the sender's address information is marked on the cover of the item. Undeliverable items are processed according to the product terms of the item and the General Contract Terms.

1.5. Storage period

Items to be picked up from an outlet are stored at the relevant outlet for two (2) full calendar weeks. Forwarding from outlet to outlet will not extend the combined storage period.

1.6. Item dimensions

The maximum and minimum dimensions of items are detailed in the price list and/or the mailing instructions.

1.7. Customer's obligations

In addition to what has been stated in the General Contract Terms, the Customer must comply with Posti's mailing or other instructions when using the Services and instruct the sender to comply with them. The Customer shall be responsible for ensuring that correct and up-to-date name, address and payment information and any other markings required by the Service are indicated on items. The name and Finnish mainland address of the sender must always be indicated on items in the event that they need to be returned.

The Customer must use Posti's online service for submitting advance order information for those services that require an advance order.

The Customer is responsible for the accuracy of the information submitted to the mailing list or another ordering channel and for ensuring that the quantity and weight information of the items correspond to the mailing batch or the single item.

If the Customer has breached Posti's terms or instructions and this results in additional work or other costs, Posti shall be entitled to charge from the Customer an Additional Handling Fee as per the Tariffs and Rates and/or the costs incurred.

In the event that the level of preparations for which the Customer is responsible is not carried out or an advance order provided by the Customer is not realized or if the items have not been mailed according to Posti's instructions, Posti cannot guarantee the service level agreed for the service.

By agreeing to these Product Terms, the Customer gives its subcontractors the right to sort a mailing batch and its address data using Posti's Sorting Service without separate authorization. In order to use Posti's Sorting Service, the printing, posting or print-out house operating as a subcontractor of the Customer is required to have a valid agreement on its use with Posti.

1.8. Posti's right to deviate from the Service ordered by the Customer

Posti has the right to deviate from the Service ordered by the Customer if the Services selected by the Customer are in conflict with each other or the item. Posti aims to carry out the Service in a way that secures the benefit of the Customer. In case of a conflict, Posti may amend the main product or additional services.

If the Customer's item does not comply with the requirements of the product selected by the Customer (e.g. in terms of item size), Posti shall be entitled to process and invoice the item as a Service whose characteristics correspond to those of the Customer's item or return it to the sender.

The Service level agreement (SLA) shall not apply to situations caused by reasons other than those attributable to Posti, such as an error in the address or Change of Address, fixed-term forwarding or mail delivery interruption cases.

1.9. Laboratory samples

If an item contains laboratory samples, the Customer shall be responsible for ensuring that the substance delivered for transport has been categorized and packed in accordance with the Act on the Transport of Dangerous Goods (719/1994), that the package has correct markings and that the name and category of the substance and other required details are entered correctly in the necessary documents. The Customer must instruct the sender to comply with Posti's terms and conditions as well as specific instructions on sending laboratory samples. The contact details of the sender and the Customer must be indicated on each item.

1.10. Methods of payment

The methods of payment available at any given time are specified in the price list. The method of payment chosen by the Customer may affect the available range of services or the price of the Service.

2. Domestic letter services

2.1. Service description

Domestic letter services can be used for sending personal messages within Finland. Items are protected by the secrecy of correspondence. The maximum weight of a letter item is 2 kg. Letter items undergo address clarification and are forwarded to the recipient's new mail address without a separate fee, unless otherwise stated in the service information. If the item cannot be delivered, it will be returned without a separate fee to the Finnish mainland return address indicated by the sender on the envelope. Ordinary letters are delivered in Posti's delivery service on weekdays (Mon–Fri) unless the delivery days are service-specifically defined. If the item is handed over only in exchange for a signature or if the item cannot be delivered due to its size, the recipient is sent a notice that the item can be picked up at a Posti outlet. Letter services are governed by the Finnish Postal Act.

Posti's responsibility for the delivery time ends when the item has been delivered or the notice of arrival has been sent to the recipient.

2.2. Restrictions

The content of items is restricted as specified in Posti's General Contract Terms.

2.3. Electronic notice of arrival

Electronic notice of arrival (SSI) is mentioned separately in connection with the products for which it is available. SSI is available only if the Customer and Posti have separately agreed on the service and on electronic data transfer. The sender shall be responsible for conveying the correct contact details of the recipient to Posti and for the possibility to deliver the message concerning the notice of arrival to the recipient via the message channel in question (e.g. an SMS to a mobile phone, an email or a paper notice to the recipient's delivery address). The sender is also responsible for informing the recipient of their obligation to pay for the international costs of receiving messages abroad. An electronic notice of arrival cannot be linked to items addressed to the Åland Islands or to a Corporate Postal Code.
